

Super Collector G20 Portable Gas Vacuum Collection Systems!

The Super Collector G20, a portable gas vacuum collection system, is designed primarily for residential air duct cleaning but can also be used for insulation removal and other light debris pick-up.

It features a powerful 20 hp motor and large material handling fan that delivers the suction of a truck mounted unit in a portable package. The large, high efficiency collection bag with a large collection bin minimizes cleanout frequency while maximizing your productivity. A full compliment of 8" and 10" flex hoses, reducers, hose connectors and starter collars are also available to complete your package and meet your specific requirements.

Specifications:

Power:

- 20 hp Kohler Command Series V-Twin Engine
- Overhead valve design
- 2 year engine warranty
- Gas or LPG
- 12 volt electric start
- Hour meter

Construction:

- (4) heavy duty pneumatic wheels for stability
- Easy to handle portable design
- 54" long x 29" wide x 46" high – 350 lbs
- Long lasting heavy gauge steel

Air:

- Heavy duty dynamically balanced material handling fan
- Capable of overcoming high static pressure losses
- 5,250 cfm @ 14.5" H² O static
- 24" H² O static capability

Inlet/Discharge:

- 10" inlet standard, 8" inlet optional
 - Protected inlet design
 - 10" discharge
 - Large (7' tall) high efficiency filter bag
 - Dust collection bin with clamping ring
-

Typical Air Duct Cleaning Package
