

See More - Sell More with Super Inspector V Visual Inspection System!

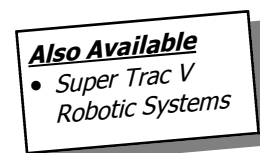

The Super Inspector V is the most portable Super Inspector yet. The new rugged and lockable case contains the 8.5" LCD monitor, control box with built in microphone, high quality color camera, camera cart, shaft bracket, 50' cable and recording/editing software for your laptop computer or DVD recorder/player. It's the perfect marketing, inspection and quality assurance tool for cleaning contractors, consultants & others!

Features & Benefits

- Great marketing and selling tool! Allows you to show existing conditions to your clients.
- Great quality assurance tool! Allows you to show your client what a good job you did. This leads to greater client satisfaction and more referrals.
- Small color camera fits almost anywhere and the (2) bright light LED lamps provide plenty of illumination.
- Built in microphone lets you provide narration of inspection.
- Recording and editing software lets you record, edit and burn DVD on your laptop computer (you supply), which is connected to the Super Inspector with its USB cable.
- If you do not want to use a laptop a multi system DVD recorder/player is also available.
- 50' cable, flexible rods, camera cart and shaft bracket makes it easy for you to place the camera where you need to.
- You can mount the Super Inspector camera on the Super RBS Brush & Air Wash System and the Super Cart Spray System for better productivity and quality assurance because operator visibility is improved.
- No other system gives you the portability, inspection/documentation capability and ability to be used on other cleaning tools to maximize their productivity and quality.
