

Providing innovative equipment, products and training for HVAC system cleaning since 1992

## Hands-on Training Request Form

Proper training can be the key to success or failure in residential and commercial air duct cleaning. Proper training teaches you the cleaning techniques that maximize your cleaning quality (for greater customer satisfaction) and cleaning productivity (for maximum profits). Vac Systems International offers you "hands-on" training at your location. All trainers are NADCA certified "Air System Cleaning Specials (ASCS)" with years of hands-on experience. Best of all, our Trainers come to your location to train your staff (1-5) people) on homes and businesses in your area. This not only can save you money but also lets you learn on homes and business types that you will see everyday. Training is one more way we can help you succeed!

Please print this form, complete the required information and fax it to 952-808-1584. We will call you to review the details and prepare a training proposal. Thank you for the opportunity to assist you!
