

Super Collector Dual E1.5—Typical Equipment Packages

This equipment package is designed around the Super Collector Dual E1.5 collector and is for the contractor who wants to clean residential (homes, apartments & condo's) and small/medium commercial buildings. The Dual E1.5 features two 1.5 hp motors and two 2,500 "free air" cfm fans for excellent performance, the lowest possible operating cost and one-person portability. Plus the Dual E1.5 can serve as a two speed air scrubber and negative air unit! There are two basic packages and then some popular optional items listed below.

Please contact us to add, delete and modify these packages to best suit your needs and to get a formal proposal that will include a detailed list of all the items in the package, their price, any available discounts and shipping costs.
