Super Whip Cleaning Systems!

The Super Whip Cleaning Systems gives you another easy to use cleaning tool! Choose from the Super Whip Basic Cleaning System, Super Whip Deluxe Cleaning System, and Super Whip Low Pressure System. Each one delivers better cleaning action than air washing alone. This will improve your productivity (for higher profits) and quality (for higher customer satisfaction). The high pressure air from your compressor is carried to the interchangeable whip heads via hollow rods with quick disconnect couplers. Most components can fit through a 1" hole. Super Whip is a great tool for cleaning residential and small commercial ductwork!

Features & Benefits

- Super Whip Cleaning Systems cleans better and faster than air washing alone so you can improve your productivity and cleaning quality.
- The three different whip heads lets you select the best whip for each application.
- Most components fit through a 1" hole reducing the need to cut a larger access opening.
- The choice of three rods types (with different stiffness) and quick connect couplers gives you excellent reach and control.
- The Octopus whip head also comes in a longer 28" length and a low pressure design that will operate on 100 psi.
- The Super Whip Cleaning Systems is another very effective cleaning tool no Air Duct Cleaning Contractor should be without!
