

Surface Treatments:

Sanitizers:

Oxine is registered by the EPA specifically for the sanitation of HVAC systems and ductwork. Oxine has been proven effective against a broad spectrum of bacteria, mold mildew and fungi. When prepared according to label instructions, Oxine eliminates microorganisms of human health concern in minutes or seconds. Oxine is easily applied (no rinsing required) with the use of a hand held fogger or other spray equipment. An important feature of Oxine is the low toxicity and safety of the product, it has been assigned an acute toxicity rating by the EPA of Category III.

EnviroCON is registered by the EPA and is highly effective deodorizer, eliminating odor causing microorganisms as well as those associated with mold, mildew and bacterial growth. EnviroCON uses no perfumes or masking agents. EnviroCON is easily applied (no rinsing required) with the use of a hand held fogger or other spray equipment. An important feature of EnviroCON is the low toxicity and safety of the product, it has been assigned an acute toxicity rating by the EPA of Category III.

Part #	Description
1-SU01	(1) case (12 -3.25 oz. bottles) Oxine
1-SU02	(1) gallon EnviroCON

Disinfectants:

Sporidicin disinfectants are EPA registered for mold remediation and air duct cleaning. They provide "100% kill of pathogenic vegetative organisms" and "continuous residual bacteriostatic activity for up to 6 months." Sporidicin is compatible with plastics, wood, glass, and metals and is non-staining, non-abrasive, and non-corrosive. Misting and fogging are recommended application methods. Sporidicin has been assigned an acute toxicity rating by the EPA of Category IV (very low toxicity)

Part #	Description
1-SU03	(1) gallon Sporidicin Disinfectant
1-SU04	(1) case (12-22 oz. spray bottles) Sporidicin Disinfectant

BBJ Mold and Mildew Disinfectant/Cleaner is EPA registered and designed to clean and disinfect hard surfaces where mold and mildew grow. It's great for surfaces such as a/c vents, grilles, diffusers, walls, floors and other hard surfaces where microbial contamination may accumulate. It has a light citrus sent that dissipates rapidly.

Part #	Description
1-SU05	(1) gallon BBJ Mold & Mildew Remover

Mold/Microorganism Inhibition Products:

BBJ MicroBiocide for Air Handlers is EPA registered and is highly effective in controlling and inhibiting the growth of active microorganisms such as bacteria, algae, mold, and other fungi that grow in HVAC systems for up to 6 months.

BBJ MicroBiocide for Air Ducts is EPA registered and specially formulated to control and inhibit growth of active microorganisms in all kinds of ductwork for 6 months to 2 years.

Mix the two part formulation with water per the instructions, apply with a power sprayer or fogger, saturate surfaces to be treated, do not rinse off and allow to dry. No need to evacuate.

Part #	Description
1-SU06	(15 oz) BBJ MicroBiocide for Air Handlers (makes 5 gallons)
1-SU07	(15 oz) BBJ MicroBiocide for Air Ducts (makes 5 gallons)

Degreaser:

Zepride is a fast acting general purpose cleaner and degreaser. It rapidly emulsifies oil and grease so it can be easily rinsed and wiped away.. Zepride is design for use on metal and other surfaces. Great for a variety of air duct cleaning needs.

Part #	Description
1-CA01	(1) gallon Zepride

Coil Cleaner:

Renewz coil cleaner leaves aluminum surfaces not only bright and shiny, but completely clean and insulation free in less than 5 minutes. It's fast acting, foaming action lifts and pushes contaminants and oxides off the coil so they can easily be rinsed away. Aerosol Renewz is a fast and easy way (no mixing) to clean coils!

Part #	Description
1-CA02	(1) gallon Renewz
1-CA03	(1) 14 oz Aerosol Can

Application Tools:

ULV foggers are great tools for applying sanitizers, disinfectants and other products that can be fogged into the HVAC system ductwork. They are easy to use, you simply add the liquid to be applied, adjust the nozzle as needed, plug into power source, place the nozzle in the ductwork and turn on. Be sure to follow the directions on the product label to insure adequate coverage and desired results.

The pump up sprayer are great for applying coil cleaner and degreaser quickly and easily.

Part #	Description
1-CDT01	(1) ULV fogger (110 volt)
1-CDT02	(1) ULV fogger (220 volt)
1-CDT03	(1) 1 gallon pump up sprayer
