Super T Option

Super Inspector Option

Apply Coatings & Sanitizers Quickly and Easily with the Super Cart Spray System!

The Super Cart Spray System is designed to quickly and easily apply coatings and sanitizers in ductwork ranging in size from 5" to 20" high. The Super Cart Spray System allows one person to spray up to 33' in each direction from one access opening. This system is used with an airless sprayer and greatly improves your spraying productivity. Spraying should only be done after the ductwork has been thoroughly cleaned.

Features & Benefits

- Applying coatings to mechanical insulation used in ductwork extends the life of that system, a definite advantage over the cost of replacing ductwork. It locks down any remaining loose fibers after cleaning, provides a much more durable air stream surface and provides a surface that is more resistant to the accumulation of dirt, moisture and other contaminants.
- All controls are at the operators fingertips making it a single person operation.
- The (3) 360 ° spray nozzle let you apply sanitizers and all of the leading coatings on the market.
- The check valve minimizes dripping and puddles when you stop spraying.
- The guide system with its 3 sets of legs lets you center the spray nozzle in 1" increments from 3" to 11" off the bottom of the duct.
- The six extension rods give you 33' of reach for excellent productivity!
- Adding the Super T Spray Option lets you spray ductwork from 20" to 36" high.
- Adding the Super Inspector visual inspection system gives the operator better visibility resulting in improved productivity and quality.

Specifications

1-CSS03	Super Cart Spray System	Consult factory for current pricing
	(1) Spray cart body	
	• With check valve	
	• With two guide leg cores	
	• With 3 sets of legs for each core	
	(1) Spray nozzle for sanitizers (#4w)	
	(1) Spray nozzle for Tough Coat repair coating (#6)	
	(1) Spray nozzle for thicker coatings (#8)	
	(5) 60" (1.8 m) extension rods	
	(1) 36" (.9 m) extension rod	
	(1) Fluid coupler (used with airless sprayer)	
	(1) Remote on/off control for your airless sprayer	
	(1) Carrying/storage case	
2-CSS20	Super T Spraying Option	

Note: You need to supply a commercial airless sprayer.
